- Good grip in Python , SQL and C
- Worked on various platforms such as Ubuntu, Kali Linux , Windows and Mac OS

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

Education Background

● University of Petroleum and Energy Studies

Bachelor of Technology , Computer Science and Engineering
08/2022 - Present

● O.S.D.A.V. Public School

Higher Secondary Examination
PCM with Computer Science
Scored - 90%
Completed in 2022

● O.S.D.A.V. Public School

Secondary School Examinations
Scored - 92.6%
Completed in 2020

About Me

A budding engineer and earnest learner, open to criticism about my personality, hard- working and interested in latest and future technology. A good coder is one who knows about the machine he's working one, so I am always keen to know about latest advancements in hardware world.

LICENSES & CERTIFICATIONS

PYTHON (BASIC)

ID : a4a3991d3e9f

SQL (BASIC)

ID : a8c1a28fbcf7

Project Works

Structural Defect Detector

This project was built under **Intel® AI For Youth** Program. Its aims to build an **AI ready model** which can help to **detect structural defects** in the buildings

AVA - Automated Voice Assistant

"Voice is the basic, common, and efficient form of a communication method for people to interact with each other. So Why not with Computers ?" In this project aims to develop a computer program based on Voice Recognition and Text-To-Speech to make the computer understand speech commands ,performing commands and returning the result in speech format

Achievements

03/2022

Secured **85%** in Information and Communication Technology Olympiad

20/2020

Secured **AIR 2** in Information and Communication Technology Olympiad

20/2019

Secured **80%** in Information and Communication Technology Olympiad
